Installation of welfare facilities in St George Street

DURATION OF WORK

- Works begin on 3 October 2011 for approx five weeks
- Cabins will be in place for five years
- Monday to Friday working hours 08.00 until 18.00
- Saturday working hours 08.00 until 13.00
- One hour start up and shut down periods are also permitted

As part of the ongoing works to construct the Crossrail Bond Street station, Costain Skanska Joint Venture (CSJV) will be undertaking major construction works in Davies Street and Hanover Square. In order for CSJV to undertake these significant works we will need to provide accommodation for the additional construction staff.

The accommodation will be located in the centre of St George Street close to the junction of Hanover Square. A total of 33 cabins will be required to make a three storey unit, approximately 9 metres high, 40 metres long and 7 metres wide. The cabins will be required for approximately five years.

WHAT TO EXPECT

- Temporary road closures from 20 October and use of cranes and cherry pickers to construct the cabins
- Suspension of parking bays on St George Street
- Removal of a lamp column and signs
- Hoarding and wrap around the cabins
- Alterations to pedestrian crossing on St George Street
- Increase in construction staff in the area

From 3 October, the parking bays will be suspended and a site boundary set up to remove the street furniture in preparation for the construction of the cabins. To minimise the loss of the parking bays on St George Street Westminster City Council is managing the provision of alternative parking bays in the vicinity of Hanover Square.

The construction of the cabins will require a temporary closure of St George Street between Hanover Square and Grosvenor Street in both directions from 20 October for 2½ weeks. Traffic diversions will be in place to maintain traffic flows to and from the square.

Vehicles heading north towards Hanover Square will be diverted along Grosvenor Street, Davies Street and Brook Street. Signage will be provided at the junction of Regent Street and Hanover Street to advise drivers that St George Street is closed to vehicles. The footpath along St George Street will remain open at all times.

WHAT WE WILL DO

- Ensure the footpaths around the site remain open at all times
- Ensure access to properties is maintained
- Operate security
- Ensure lorries are managed on site and use permitted routes
- Monitor noise levels during construction and keep within permitted levels
- Manage traffic diversions during road closures

A building wrap will be attached to the cabins to mitigate their visual impact and maintain the image of the area. The design of the wrap will be agreed with Westminster City Council.

We will do everything possible to minimise disruption to the local community. Where possible we will assist with special access / delivery needs and we encourage you to call us in advance of these works so that we can discuss any necessary arrangements.

We apologise in advance for any inconvenience caused as a result of our works. If you have any queries, please contact the Crossrail 24-hour public helpdesk on 0345 602 3813 or email helpdesk@crossrail.co.uk.
